You have a great need for other people to like and admire you. You have a tendency to be critical of yourself. You have found it unwise to be too frank in revealing yourself to others. At times you are extroverted, affable, sociable, while at other times you are introverted, wary, reserved.

Have I analyzed
your personality correctly?

Here's your horoscope for this week

You're having problems with a friend or relative. You're being too critical of yourself. At times you're having serious doubts whether you made the right decision or did the right thing, but don't worry; whatever it is you're trying to attain, you will get there.
